

## Country Hedging Electronic Trading Application

Keep pace with the professional traders with access to the same market data they have always had with Cheta™, the Country Hedging Electronic Trading Application. This web-based tool is available any time you are and for no additional cost to Country Hedging customers.

Simple to set-up and navigate, Cheta™ lets you advance your trading strategy through:

- Real time quotes on electronic markets
- Fills on electronic market orders back in less than a second
- Custom view of your day's activity and working orders
- Auto-alert of fills and rejections
- Multiple safety features

Give Cheta™ a test drive today at
